

REMOTE CONTROL TECHNOLOGY

FIRST
IN REMOTE CONTROL
TECHNOLOGY

HEAVY DUTY & MODULAR

Its heavy duty, modular construction can be used on all indoor, underground, outdoor and mobile applications. The Pit Bull™ can be Shipped Complete or in Knock-Down Form for easy assembly, which saves on freight.

CHOOSE A LOW COST MOTOR DRIVE THAT SUITS YOU

Low cost motor options which utilise the torque advantages and safer rewind speed of the standard gearbox include air, hydraulic, electric 12/24VDC and manual crank.

Change Hub Sizes in MINUTES

A stainless steel swivel can be easily added upon request making the entire fluid path stainless steel to suit aggressive or corrosive fluids.

SIZES TO SUIT ALL WORKS

The Pit Bull Direct Drive series of reels is now available in the widest range of hose capacity to suit various capacity and space requirements.

AUSTRALIAN DESIGNED & MANUFACTURED

The unique, Australian designed and made gearbox and drive mechanism is extremely compact, eliminating the need for an external gearbox.

The “No Sprocket, No Chain” design makes it one of the most reliable and safest reels available.

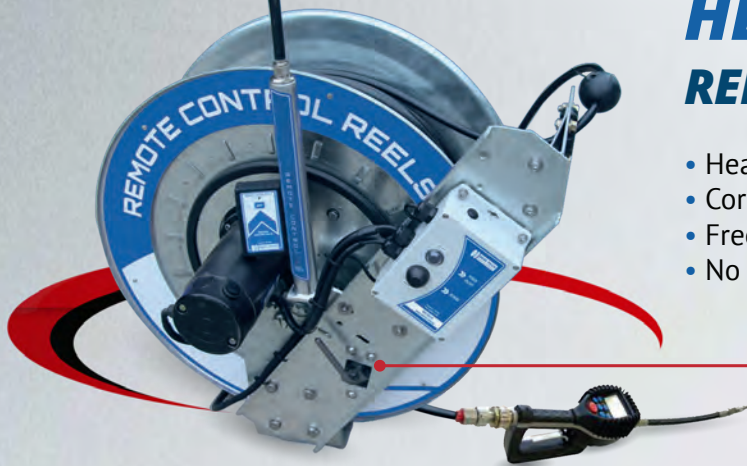

New Ultra-Narrow design is now available for smaller capacity or limited space requirements such as in workshops, service trucks and mine processes.

TOUGHEST FOR THE ROUGHEST

REMOTE CONTROL TECHNOLOGY

HEAVY DUTY REMOTE RETRACTABLE HOSE REEL

- Heavy Duty thick gauge steel construction
- Corrosion & scratch resistance **Galvanised finish**
- Free of pinch points and - effectively maintenance free
- No belts or chains that need to be regularly checked

SPECIFICATIONS

Remote Control

Single channel control 915mhz with adaptive frequency hopping prevents interference for reliable performance across undulating terrain. Rubber sheathed for protection supplied fitted with 9V battery.

Reel Mounted Controls

On/Off power switch and Manual override rewind switch.

Reel Hub position lock

Spring loaded Pin-Lock with ratchet mechanism when engaged the self tightening mechanism keeps hose safely on the reel and prevents hose or spraygun damage in transport.

Plumbing

Stainless steel fluid path with high pressure swivel

Inlet/outlet: ½" NPTF connections

Hose: 100m of ½" O.D Kink resistant nylon tubing

Spray Gun: Turbo 400 with hose swivel

Ratcheting pin lock
eliminates accidental
unspooling

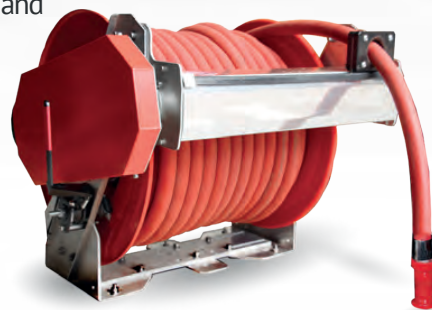

ALSO AVAILABLE 12V
